FUJI CHEMICAL ANNOUNCES THE AWARD OF A NEW PATENT

Fuji Chemical Industry Co., Ltd., Mount Laurel, NJ has been awarded U.S. Patent # 6,773,708 for the treatment of autoimmune diseases, chronic viral and intracellular bacteria with AstaREAL[®] astaxanthin. The basis to this patent is that astaxanthin can normalize an unbalanced immune response during an ongoing infection/inflammation by modulating an overactive Th1 response to a more balanced Th1/Th2 response.
